

Chairman's newsletter No 1

Today I have put the Planning Advice Application forms into the Council – this will give us the information we will need to progress with the greensward in the future. Hopefully they will tell us what can be built and how many. So don't panic, I believe this can take several weeks.

The committee has met since the AGM and discussed what was said at the last AGM. An update of our rules and constitution which is being looked at now, I hope will answer some of the points raised.

This is in no way a substitute for the minutes taken at meetings, just an interim informative newsletter which we will issue from time to time.

You may not be aware that Derek Rook our Treasurer will retire from the next AGM 2016 so we have a year to find someone to fill this role. Yes we do need a treasurer, interested?

Finally does anyone know of a Mobile Welder for our tables?

MICK 21/7/15
