

## Chairman's News Letter No 3

Thanks to Diana this newsletter is now going global. Saying that, I just hope it reaches all club members.

Lots of info in this one starting with our waste bin. It's new it's shiny, black and big and it needs filling every week. We can put everything you can imagine in this one from glass to grass so please, with your help, let's get rid of some of the rubbish around. It comes under the heading of Business Waste and costs £100 per quarter so let's hope it gets collected **full** every week.

All the tables have been checked, seven were found to be broken and have now been repaired so nobody needs to stand up over their dinner at the dance later in November.

Not much has happened regarding the greensward but I am waiting to attend a meeting at the Council Planning Dept with M & P Dunn and their architect. They are the builders who are interested in our site - as yet no date has been arranged. They want to present their case for two dwellings as against the Council saying only one. At the end of all this we will present all the information gathered to an EGM.

We have been getting quotes for flooring for the kitchen; behind the bar and the area directly in front of the bar with some surprising results. The committee are deliberating and will shortly make a choice so before I go ahead and order, please take the opportunity to view the colours and the quotes and make any comments if you wish. The quotes range from £1206 to £1650. The flooring itself will be Polysafe non-slip which is the standard requirement for Kitchen and Bar areas for Health and Safety. This will also give us some safeguard from an insurance point of view. For the next couple of weeks or so I will carry them in my car for anybody to see.

We are waiting for another electrician to help us with the Fox Alarm system which we now have. Unfortunately John Brand who was going to complete the fixing has been taken ill. All our best wishes go to him.

My thanks to the members who give up their time to tidy up around the gardens and cut the grass but we would like more help please however small as Autumn is here and everything is dying back and there are weeds galore. Which brings us back to the first paragraph!

Mick
